12:00 – 13:00 CET

Presenting the participatory design process toolkit: methods for co-creation in the AHA field

We invite you take part of the final workshop in the series dedicated to the formulation of the participatory design process toolkit to scale-up innovation in the field of active and healthy ageing. During the workshop we will give an overview of the participatory design process toolkit.
Practical experience of participatory design in the health and care sector will be shared by an expert in the field. We will also give an overview of the current status of the new scale-up model created within the project. All stakeholders are invited to ask questions during the workshop and send feedback also after the session.

Innovation end-users, specialists, technology and service providers, investors, health and care professionals, authorities, academia, civil society organisations, we hope to see you all at the workshop!

AGENDA

12:00 – 12:05 **Introduction**
Piret Hirv, Tehnopol/Connected Health Cluster
