

The Just City Dimension

How are urban initiatives and actions supporting Green, Just and Productive Cities in the EU?

UAEU Webinar: 4 October 2021

On the series of webinars

With the current form of the Urban Agenda for the EU (UAEU) coming to an end, it's essential that we capitalise on its achievements, explore linkages and synergies with other relevant initiatives and feed into its renewal process. In this context, a series of three webinars will be organised in line with the Green, Just and Productive city dimensions, as established under the New Leipzig Charter (NLC). Entitled '**How are urban initiatives and actions supporting Green, Just and Productive Cities in the EU?**', the webinars will showcase examples and initiatives from cities on how to develop resilience and further the implementation of these dimensions at the local level, and providing a space for discussing achievements, remaining issues and future opportunities to help cities face their challenges in a strategic way and thus contribute to sustainable urban development.

The webinars will take place on the following dates, between **14:00 – 16:00** CEST:

The Productive City	The Green City	The Just City
20 September 2021	27 September 2021	4 October 2021

They will be based around the [series of articles on the 14 Partnerships of the Urban Agenda for the EU](#) which link actions and activities with other relevant EU projects and initiatives supported by Cohesion Policy (including Urban Innovative Actions, URBACT and Article 7 cities benefitting from the European Regional Development fund (ERDF)). Speakers in this section of the webinar will tackle the discussion from the angle of **housing, inclusion and fundamental rights**.

The webinars are open to anyone who is interested, and we especially welcome the participation of UAEU Partners, representatives from URBACT, UIA and Article 7 Cities, and interested cities and managing authorities who would like to benefit from these presentations and discussions.

The Just City

The Just City Webinar is **2-hour session** taking place on **4 October 2021**. The webinar will bring together experience from cities, with a focus on how to further the implementation of this NLC pillar. In particular, experiences from Action Leaders of the Urban Agenda for the EU, as well as cities from Urban Innovative Actions (UIA), from URBACT and others benefitting from Article 7 cities implementing ERDF will be showcased.

The focus of the webinar will then turn to the future, featuring presentations from relevant DG's at the European Commission on on-going or upcoming initiatives related to urban development and according to the thematic angle of the Just City.

The webinars will feature key insights and conclusions, Q&A with participants, and a guided discussion on future opportunities involving all speakers in the webinar.

Objectives

The main objectives of this webinar are to:

- Create relevant linkages between UAEU Actions, URBACT, UIA and Article 7 cities around the Just City dimension of the New Leipzig Charter;
- Extract key messages from experiences and identify new challenges or specific problematics that would deserve further attention;
- Collect contextual information and prospects on involvement for current and upcoming opportunities at the EU level (EUI, future UAEU, other EU policies/initiatives);
- Present an opportunity to benefit from current knowledge and reflections, and to provide ideas for reflecting on future activities to be organised under the EUI and other initiatives supporting the UAEU.
