

URBAN AGENDA PARTNERSHIP MEETING
DG HOME, 22 NOVEMBER 2017

What is COST?

- COST is an intergovernmental, pan-European Framework (36 Member Countries and one Cooperating State)
- COST mission: enabling Scientific and Technological developments through trans-European networking of national research investments
- Framework Partnership Agreement (FPA): strategic agreement with the European Commission for Horizon 2020 and Specific Grant Agreements for its implementation
- EUR 298 million budget for 7 years drawn from two Horizon 2020 work programmes:
 - Challenge 6 "Europe in a changing world inclusive, innovative and reflective Societies"
 - "Spreading Excellence and Widening Participation"

What is COST?

COST supports the networking of researchers through science and technology networks called 'COST Actions' open to:

- Any novel and original idea (innovative)
- All fields of S&T (including interdisciplinary, new and emergent fields) – bottom-up
- Flexible participation join at any time
- All partners (academia, public organisations, SME, industry, NGO, International Organisations)
- All career stages (young and senior researchers)
 - Capacity building
- All countries (COST Countries, NNC, IPC)
 - Global cooperation on the basis of mutual interest

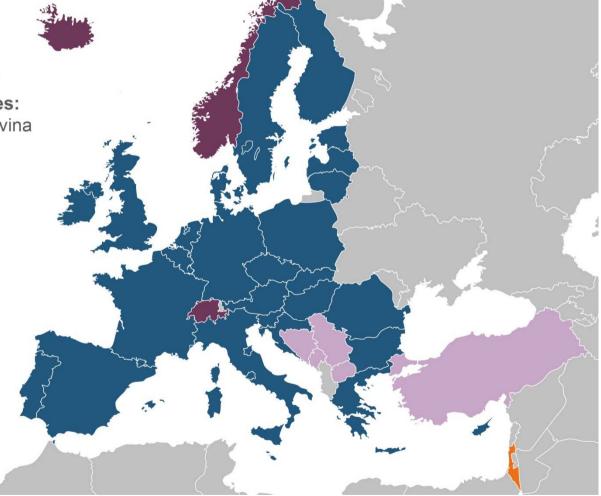

COST Countries

● EU 28

Potential Candidates:
Bosnia and Herzegovina
fYR Macedonia
Montenegro
Republic of Serbia
Turkey

Other Countries:IcelandNorwaySwitzerland

COST Cooperating State: Israel

COST Networking Tools

MC & CORE GROUP **MEETINGS** WG **SHORT TERM SCIENTIFIC MEETINGS MISSIONS** COST **NETWORKING TOOLS WORKSHOPS TRAINING SCHOOLS CONFERENCES DISSEMINATION**

Composition of ETHMIGSURVEYDATA

- Currently, 34 countries have signed MoU + colleagues from US, AUS, NZ & CAN to join as Observers
- 100+ individuals are listed as main or substitute members of the Management Committee
- A very diverse group of participants from many disciplines (e.g. law, psychology, demography, health studies)
- Several EU agencies are already Observers: FRA, EASO, Eurofund
- New EU agencies/organisations to join soon: JRC + Eurostat?
- Will reach out to other gov't institutions (e.g. national statistics offices)
- Some cities also members (e.g. Amsterdam), very interested in attracting more local gov't units
- Diversity is great asset to the network, reaching out to non-academic communities essential

Objectives of ETHMIGSURVEYDATA

- (1) Produce a comprehensive compilation of the data that is available on EMMs across Europe and beyond;
- (2) Articulate the mechanisms to archive and share the data and make them available to a wider public, both academic and non-academic, on open data platforms;
- (3) Bring together the expertise that will allow survey data already collected to be subject to a post-harmonization process in order to facilitate comparative analyses of data that currently stand alone;
- (4) Coordinate efforts to obtain additional research funding to extend data sharing and to identify blank spots to be investigated further;

- (5) Promote further comparative analysis and the dissemination of research results on EMMs' integration;
- (6) Create the research capacity to promote similar survey data production in the European countries where they still do not exist;
- (7) Train the future generations of European researchers in best practices for data production, sharing and analysis in this area of research; and
- (8) Provide a platform for the coordination of future data collection in this field to maximize comparability
- Thus, goals focus on study of EMMs' economic, social and political integration with survey data, and on the production, compilation, sharing and pooling of such data

Linking Objectives to Workgroups

WG 1 National Surveys
Group

- Compiling data (Objective 1)
- Sharing data (Objective 2)
- Post-harmonizing data (Objective 3)

WG 2 Local Surveys
Group

- Compiling data (Objective 1)
- Sharing data (Objective 2)
- Post-harmonizing data (Objective 3)

WG 3 Indicators Group

- Coordination of future data collection (Objective 8)
- Promote survey data collection in more countries (Objective 6)

WG 4 Educational Group

- Promoting comparative analysis (Objective 5)
- Train future generations in best practices (Objective 7)

WG 5 Communication Group

- Coordinating additional research funding capture (Objective 4)
- Disseminating comparative analyses (Objective 5)

Tasks to undertake with the Action

Task #	Description	WGs involved	Outputs expected
1	Review of relevant material,	1, 2 and 3	Inventory, reports and guidelines
	datasets and literature		
2	Location and retrieval of National	1 and 2	Non-harmonized data inventory
	and Local data		
3	Definition of guidelines for	3	Guidelines and 'core' questionnaires for
	surveying EMMs' integration		future research
4	Harmonization of National and	1 and 2	Harmonized databases, technical reports
	Local data		on data, codebooks
5	Integration of findings to produce	All	Action workshops and working papers
	coherent knowledge		
6	Identification of best practices	1, 2, 3 and 5	Working papers, reports and policy
	and recommendations		recommendations
7	Development of a research	1, 2, 3 and 5	Action workshops and working papers
	agenda for the future		
8	Distribution and promotion of the	All	Conferences, workshops, publications,
	data		policy recommendations, schools

Key outputs and deliverables

 An EMM Survey Data Hub: with compilation/identification of survey data across Europe and data in open access when shared by producers

 Integrated datasets: through post-harmonization of existing surveys, also to be made available through Data Hub

Publications and dissemination: both academic and policy-oriented

 High quality research skills: through the training of new cohorts of researchers

Plan for Activities

- Leicester meeting in July to outline strategy and plan to deliver on goals for year 1 (and allow us to deliver those for future years as we move along)
- Between July and December, WG leadership teams to meet on Skype or similar and exchange emails with initial proposals on implementation plans + STSM call
- Meeting in December (18-20 in Madrid): plenary of all WGs with all members + MC meeting to decide on structure for draft of reports and adjust detailed strategy and work plan if needed
- Between December and February, WG leadership teams to implement plans (e.g. circulate data collection templates, produce drafts of reports, start setting set up website, etc.)
- Workshop + Winter training school in February (probably in Porto): discuss/prepare funding applications + disseminate existing data to stakeholders + training school

Who can join ETHMIGSURVEYDATA?

 The Action is formally joined by countries (see the Action website for the full list).

• Until now 34 countries have joined the network but more countries can join by signing the Memorandum of Understanding.

 Nevertheless, individuals/organisations can also join and form part of the network and participate in the activities of ETHMIGSURVEYDATA.

 If you are a researcher — academic or non-academic — undertaking research with survey data on EMMs you can join the network and contribute to it.

How can you join the Action and Network

- Individuals can join as members (main or substitute) of the Management Committee of the Action if there are positions left for the country where they are based; or they can join directly one of the five work groups that structure the Network:
 - Work Group 1: Task Force on National-level data
 - Work Group 2: Task Force on Local-level data
 - Work Group 3: Setting the guidelines for measuring EMMs' integration
 - Work Group 4: Training young scholars
 - Work Group 5: Interaction with stakeholders and dissemination
- If you are interested in joining ETHMIGSURVEYDATA, you can send an email to laura.morales@sciencespo.fr
- More information on: http://www2.le.ac.uk/departments/politics/research/ethmigsurveydata
- Follow us on Twitter: @EthMigSurveyDat

Action Governance

Implementation of COST policies

- Excellence: transversal in all scientific goals, tasks and deliverables
- Inclusiveness: Geographical coverage, Gender balance, integration of ECIs
 - Very good starting point in composition of network
 - Embedded in proposal of Constitution/Internal Rules of operation for Action
 - Embedded in selection process of WG co-leaders and WGLTs
 - Steering Committee and Management Committee will oversee implementation and make recommendations when needed
- Incorporation of SMEs & Industry: WG5 specifically tasked with reaching out to a variety of non-academic organizations
- International cooperation: several IPCs interested in joining Action as MC Observers (USA, CAN, NZ, AUS), full participation will be sought through additional external funding

• Thank you for listening!

• Questions?

• Want to join?

• Suggestions?
