Robots for Children

CALL FOR PAPERS !

aaate
ASSOCIATION FOR THE ADVANCEMENT
OF ASSISTIVE TECHNOLOGY IN EUROPE

August 30 - September 1
2023
Paris

https://aaate2023.eu/

The **R4C – Robotics for Children** Network calls for contributions to a Special Thematic Session on the use of robots for childcare. We are looking for presentations about (but not limited to):

- (Child-centred) Research and development of robots for children with disabilities;
- Studies on robotic interventions with children with disabilities;
- Ethical issues in the use of robots with children with disabilities;
- (Child-centred) Assessment of robotic interventions with children with disabilities;
- (Personnel and user) Training on the use of robotic assistive technologies for children.

Read the full call at:

https://aaate2023.eu/call/sts/list/robots-for-children

What is R4C?

- R4C is a **network** of academic researchers, developers and health practitioners interested in the use of robots to promote the development, inclusion and wellbeing of children with disabilities.
- R4C is an **open platform** where to share ideas, projects, and information on the most recent initiatives in the field of robotics and its potential for children with disabilities.
- R4C promotes **international collaborations** and academic exchanges to build research partnerships and share good practices on the use of robots in child's care.
